Dear Michael & Patricia,

I am pleased to enclose your Statement of Advice (SoA).

It is an important document that you should read and understand before making a decision to proceed further.

We have based the strategies and recommendations in this document on our understanding of your current personal and financial position. If any of this information does not reflect any part of your current position, goals and objectives please advise us immediately and we will make the necessary changes.

The SoA sets out our recommended strategies to address your needs, together with a recommended course of action to implement these strategies.

When you are ready to proceed, we would be very happy to help you with the implementation of the advice, including the completion and lodgement of application forms and other documents.

Please note, our recommendations in this Statement of Advice are valid for 30 days from the date on the cover of this document. If your circumstances change before you implement our recommendations, or if you don't act on them within 30 days, they may no longer be appropriate for you. If that happens, please ask us to review your situation again before you take any action.

Once implemented, we should review your situation on a regular basis to ensure we make the most of any changes that may impact on the strategies I have recommended for you.

Yours sincerely,

Andrew Lord

Purpose of this document

The following Statement of Advice (SoA) is an outline of the financial plan discussed with your financial planner. It details the recommendations needed to execute your plan and achieve your financial objectives.

Timeframe for our advice

Our recommendations in this SoA are valid for 30 days from the preparation date on the cover of this document. If your circumstances change before you implement our recommendations, or if you don't act on them within 30 days, they may no longer be appropriate for you. If that happens, please ask us to review your situation before taking any action.

Check for accuracy

This SoA is based on the information you provided. Please read the document carefully, checking that your details are correct and that no important facts are missing. If anything is wrong or missing, please let us know immediately—otherwise our advice may be based on incorrect information and may not be right for you.

Limitations of our advice

We cannot give advice on:

- Trust or business structures
- Taxation
- General insurance
- Direct share or property purchases
- Legal matters

Please don't consider any of this document's recommendations to be advice in any of these areas. If you need advice in these areas, please see a qualified professional in that field.

Assumptions we've made

When giving advice, we make certain assumptions to demonstrate how the advice could affect your financial situation. We've based our advice on economic information and legislation that was current when we prepared your SoA.

All dollar amounts in this SoA are in today's dollars, even when we mention future income, expenses, investment amounts and so on. Naturally we can't predict what future inflation rates will be, so we can only make assumptions based on past trends. Also, all amounts listed in this document are "p.a." (per annum) unless otherwise stated or implied.

Product selection

We are committed to giving you the best products for your situation. When preparing your advice we considered and recommended only those products on Pareto Group's "Approved Product List". This list was compiled by a dedicated Investment Review Committee, which regularly reviews it. To see the complete product list, please ask us.

Introduction

You are entitled to receive a Statement of Advice (SoA) whenever we provide you with any personal financial advice. Personal financial advice is advice that takes into account any one or more of your objectives, financial situation and needs.

This SoA is a record of the personal financial advice provided to you and includes information on the basis on which this advice is given, information about remuneration including fees, any other benefits and any interests, relationships or associations which might influence the making of the advice.

If this advice includes a recommendation to you to acquire a particular financial product (other than securities) or an offer to issue or arrange the issue of a financial product to you, we will also provide you with a Product Disclosure Statement containing information about the particular product to help you make an informed decision about that product.

The Scope of Our Advice

In this statement of advice, the main focus is on:

- Retirement Planning
- Superannuation
- Transition to Retirement
- Salary sacrifice

This advice is based on information we have obtained from you. You must ensure the information is accurate and complete. Otherwise, this advice may be based on inaccurate or incomplete information relating to your investment objectives, financial situation or needs. You must therefore assess whether the advice is appropriate, in the light of your own individual investment objectives, financial situation or needs.

You recognise in each of the areas of advice we provide, we only provide advice to the extent we are able to under the relevant legislation.

Our Investment Recommendations

In respect of the specific investments we recommend as part of our advice you are entitled to a 14 day cooling off period for your initial investment. A cooling off period generally means a period of time after which you have provided your capital for investment, where you can change your mind and request for your capital to be returned to you.

Each fund manager or investment provider may implement the cooling off period in a slightly different manner. Therefore we recommend you refer to the Product Disclosure Statement for each of the recommended investments in order to understand the operation of each provider's cooling off period.

Your Adviser

At any time should you have any questions or concerns, in the first instance please contact your adviser Andrew Lord on (03) 9596 5111.

Andrew Lord is authorised to represent Pareto Group Pty Ltd. Should you wish to discuss matters of concern about your adviser or the advice you have received please contact us on 03 9596 5111.

The Planning Process

Michael & Patricia, *Financial Planning* is a process to help you reach both your Personal and Financial Goals and Objectives. In order to achieve this we jointly need to undertake a number of tasks, including:

- ✓ Confirm your personal goals and lifestyle objectives;
- ✓ Quantify the resources required to meet your goals and objectives;
- ✓ Identify any gaps in your current plans and your stated goals and objectives;
- ✓ Develop suitable strategies to address any differences that may exist bearing in mind your attitude to investing and your risk profile;
- ✓ Conduct a regular review of the strategies we put into effect to ensure they keep pace with your changing needs, legislative changes and the investment environment.

Executive Summary

In this plan our advice considers the following areas of your financial circumstances.

Your Goals and Objectives

After our discussions I have listed below what we agreed were your key goals and objectives. The points listed below form the basis of the plan I have prepared, and therefore you should read them carefully now to ensure that we have an accurate foundation on which to proceed. If there are any modifications required, please advise us prior to the commencement of your financial plan.

Your goals and objectives are to:

- Take advantage of current superannuation legislation especially tax free income from age 60, and therefore seek advice on ways to transition moneys from outside superannuation into the super environment.
- Review your superannuation contribution strategies with the aim of increasing your retirement savings in a tax effective manner.
- Review your superannuation portfolio.
- Minimise your tax commitments.

Recommendation Overview

Considering your stated goals and objectives, investor risk profile and age we recommend that you:

- Michael, commence a non-commutable pre-retirement allocated pension with **\$516,659** made up of your AMP Corporate Super, Russell Super and Australian Super funds, rolled over to the recommended pension platform. (See Colonial Wholesale Pension investment recommendation section.)
- Michael, commence the minimum pension allowable – **\$20,666** per annum.
- Michael, salary sacrifice **\$16,000 per annum** (\$1,333 per month) to your AMP Custom Super Fund.
- Invest your funds in line with your Investor Risk Profile which is in line with that of a “Growth” portfolio.
- Patricia, salary sacrifice **\$12,000 per annum** (\$1,000 per month) to your Hesta Super Fund.

Anticipated Outcomes

Following our recommendations, we anticipate that:

- Your surplus cash flow we anticipate will have increased from \$0 to \$2,641 per annum.
- Your total superannuation benefit after the first year will be around **\$8,229** higher than if you did nothing other than continued on as you are. We would expect a similar result each year until retirement. This is without taking into consideration any non-concessional contributions that may be made from year to year.
- Michael, once you commence the recommended Transition to Retirement (TTR) strategy, we estimate that this will result in a combined tax saving of approximately **\$5,022** per annum.
- Your capital is invested inside the superannuation environment consistent with your current investor risk profile
- You have re-structured your superannuation assets and increased the tax effectiveness of your retirement benefits upon commencement of an income stream.
- You have increased your superannuation contributions to build a capital base to meet your retirement income goals.

Future Strategies

- To annually review superannuation contributions, investment performance and cash flow requirements. We will aim to meet in June each year to review.
- Closer to retirement we will provide you with recommendations and advice relating to the retirement stage of your financial plan.

Less Budgeted Expenditure	\$67,268	\$47,853	\$115,121
Income Surplus	\$0	\$0	\$0

You have provided us with the above figures in the table. If the estimated Cash Flow Surplus may be over or understated please notify us if this is the case.

Your Investor Risk Profile

The following section of your plan helps to ensure that I clearly understand your attitude to investment selection. Additionally, investments contain various characteristics, which may or may not suit each individual investor.

Based upon your responses to the Risk Profile Questionnaire, **it was determined you can be considered a “Growth” investor.**

- A Growth investor places greater emphasis on capital appreciation with current income and asset preservation being of a secondary concern.
- This requires an investments time horizon of between 5 – 7 years.
- Their portfolio would typically comprise an overweight holding in shares and property with a small exposure to income bearing securities such as cash and fixed interest.

A Growth investor will typically diversify their investment in the following manner:

Australian Shares	43%
International Shares	25%
Fixed Interest	13%
Property	17%
Cash	2%

Our research indicates that long term returns will be best achieved through a diversified portfolio covering all major asset classes (i.e. Cash, Fixed Interest, Shares and Property).

By covering all primary investment markets the risks and volatility of your investments can be managed to levels consistent with your investment profile, whilst maintaining the potential for long term growth.

If you feel the above investor profile does not reflect your attitude as an investor, or the recommended portfolio contained in this report is too aggressive or conservative, please let me know so I may adjust my recommendations accordingly.

Our recommendation has been made given your risk tolerance, while in balance with your goals and objectives.

Strategy Recommendation

Retirement Planning

Michael and Patricia, for our retirement planning projections, we have assumed a retirement age of 65 for both of you. As you have not provided us with a required retirement income amount, we have based our projections on you requiring your combined current net salary (\$115,121) in retirement combined (\$57,560 pa each).

- We estimate that by the time:
 - Michael is age 65 he will have a conservatively estimated accumulated retirement capital balance of around **\$751,000**. This is estimated to provide an annual income of \$57,100.
 - Patricia is age 65 she will have a conservatively estimated accumulated retirement capital balance of around **\$418,000**. This is estimated to provide an annual income of \$31,800.
- Based on these figures you currently have a retirement capital shortfall as your projected capital at retirement is estimated to provide an annual income of \$88,900 which is \$26,221 p.a. less than the projected income required.
- You will need to consider additional wealth accumulation strategies such as salary sacrifice to help you achieve your capital goal. We will provide ongoing advice to help you achieve this.

Risks:

- Superannuation benefits are subject to market returns and earning rates are not guaranteed.

Superannuation Funds

Recommendations:

- Michael, commence a non-commutable pre-retirement allocated pension with **\$516,659** made up of your AMP Corporate Super, Russell Super and Australian Super funds, rolled over to the recommended pension platform. (See Colonial Wholesale Pension investment recommendation section.)
- Michael, commence the minimum pension allowable – **\$20,666** per annum.
- Michael, salary sacrifice **\$16,000 per annum** (\$1,333 per month) to your AMP Custom Super Fund.
- Invest your funds in line with your Investor Risk Profile which is in line with that of a “Growth” portfolio.
- Patricia, salary sacrifice **\$12,000 per annum** (\$1,000 per month) to your Hesta Super Fund.

Benefits:

- A sector specific asset allocation strategy takes advantage of expert fund managers who specialise in that single sector.
- You will have access to a wide range of investment options with access to more than one specialist manager within each asset class.
- The recommended wholesale fund platform has a wide range of investment options with access to more than one specialist manager within each asset class.
- Your superannuation benefits will be invested under a cost effective investment platform that provides all the characteristics you will need approaching retirement.
- You will gain ongoing advice from us as your financial adviser as we will have full access to information relating to the recommended superannuation fund. This will enable us to provide thorough and timely advice to you.

Risks:

- The recommended investment’s performance is subject to market fluctuations.
- Investment performance is not guaranteed.

Transition to Retirement

The aim of a 'Transition to Retirement' strategy is to utilise current legislation to increase superannuation contributions whilst remaining cash flow neutral.

Current legislation allows you (as you have reached preservation age) to commence a non-commutable income stream with your superannuation monies without having to satisfy a condition of release. From age 60, all income received from this income stream are tax free.

The minimum pension amount that you can draw is 4% of your account balance per annum whilst the maximum pension is 10% and is re-calculated in July each year.

The additional income received from your pre-retirement income stream allows you to make additional contributions to superannuation in the form of salary sacrifice. Salary sacrifice contributions are pre-tax contributions and therefore result in a reduction of assessable income. These superannuation contributions are concessional taxed at a maximum of 15% as opposed to marginal tax rates of up to 49.5%.

The 'Transition to Retirement' strategy results in an increased net inflow to superannuation and therefore a maximisation of your retirement savings in a tax effective manner.

Pre-Retirement Income Stream

Recommendations:

- Michael, commence a non-commutable pre-retirement allocated pension with **\$516,659** of your benefits rolled over to the recommended pension platform. (See Colonial Wholesale Pension investment recommendation section). Your AMP Custom Super fund will remain open to accept future contributions.
- Michael, commence the minimum pension allowable. This is estimated as **\$20,666** per annum (\$1,722 per month).
- This pension income is to be used to supplement your income that you will salary sacrifice to super.
- By commencing a pre-retirement income stream you are increasing your income in a tax effective manner and therefore allowing you to commence a salary sacrifice arrangement.
- There is an immediate income tax benefit on withdrawal and re-contribution via salary sacrifice, as a result of this strategy.
- The income from a pre-retirement income stream is tax effective income, in that you will receive such benefits as:
 - A deductible amount for tax purposes – which reduces your taxable income.
 - Ability to draw down income from the pension tax free.

Risks:

- Your income stream capital is subject to market performance fluctuations which may have a flow on effect to your income received.
- **A condition of the transition to retirement income stream is that it is non-commutable – no lump sum withdrawals can be made until you satisfy a condition of release.**

Salary Sacrifice to Superannuation

Recommendation:

- Michael, salary sacrifice **\$16,000 per annum** (\$1,333 per month) to your AMP Customs Super Fund.
- Patricia, salary sacrifice **\$12,000 per annum** (\$1000 per month) to your Hesta Super Fund.
- Arrange this with your employer/payroll as soon as possible.

Benefits:

- Salary sacrifice contributions are made with pre-tax dollars and therefore you will receive a reduction in taxable income for the contributions that you make.
- Michael, your salary sacrifice contributions will be taxed at a maximum of 15% compared to the 37% if taken as income.
- Patricia, your salary sacrifice contributions will be taxed at a maximum of 15% compared to the 32.5% if taken as income.
- **The total combined tax saving for a full financial year is \$5,022.**
- **You have increased your combined NET superannuation contributions by \$8,229 p.a. to build a capital base to meet your retirement income goals.**

Risks:

- Superannuation benefits are subject to market returns and earning rates are not guaranteed.

IMPORTANT:

It is important that any salary sacrifice arrangement is clearly documented in writing. You should also confirm with your employer that they are going to continue to pay Superannuation Guarantee Contributions (SGC) on the grossed up amount of your package, i.e. that the SGC will continue to be calculated on the total of your salary + salary sacrificed amount.

Full Financial Year

Reversionary Pensions

Recommendations:

Michael, when you commence your pre-retirement income stream (pension) you should make it *reversionary*.

Benefits:

- A reversionary pension enables your tax dependant beneficiary to receive your pension account balance remaining within the superannuation environment. All moneys received by the reversionary beneficiary remain in pension phase and therefore all income earned by the fund or capital gains realised by the fund to pay the benefit pension will not be subject to tax.
- If either the deceased or the recipient of the reversionary pension is over the age of 60, the income stream will not be assessable for income tax purposes.

Risks:

- Death benefits in the form of a pension may only be paid to a “Tax Dependant”. As your children are not classified as a tax dependants, in the event that you were both to die, they would only be able to receive a lump sum, thus would not receive the benefits of being in pension phase or within superannuation.
- If the income stream is commuted (either rolled into an accumulation fund or lump sums are withdrawn) within six months after the death of the deceased or 3 months after the grant of probate of that deceased person's will or letters of administration of that deceased person's estate, then it is treated as a death benefit payment. Therefore the moneys would be treated as a lump sum benefit outside of the superannuation environment.

Superannuation Contribution Limits

Table 1- Concessional contribution limits

Concessional contributions include employer and self-employed contributions such as salary sacrifice, superannuation guarantee and personal concessional contributions.

Date	Limit (per annum)				
	To Age 49	Age 50-59	Age 60-65	Age 65-74*	Age 75 and over
From 1 July 2012	\$25,000	\$25,000	\$25,000	\$25,000	SGC only
From 1 July 2013	\$25,000	\$25,000	\$35,000	\$35,000	SGC only
From 1 July 2014	\$30,000	\$35,000	\$35,000	\$35,000	SGC only
From 1 July 2017	\$25,000	\$25,000	\$25,000	\$25,000	SGC only

*Must be employed at least 40 hours during any consecutive 30 day period in the financial year you would like to make the contributions.

Concessional Contributions were previously known as Deductible Contributions (e.g. Salary Sacrifice).

Table 2 - Non-concessional contribution limits

Date	Limit on after-tax contributions	Eligibility Requirements		
		Under age 65	Age 65 to 74	Age 75 and over
From 1 July 2007	\$150,000 p.a.	May bring forward two years of contributions to make a \$450,000 contribution in one financial year	Must be employed	Cannot contribute

Cash	2%	2%	0%
Other	43%	43%	0%

As an industry standard, a variance of 10% within a particular asset class is allowed to cater for individual circumstances, economic events and fund manager asset allocation decisions. Variations outside of this range may be appropriate in certain circumstances.

This said, considering your deviation is away from the standard in some assets, I have included a commentary for the reasons surrounding this:

- The asset allocation noted above falls outside the Investor profile guidelines for a Moderately Conservative Investor. This is due to the fact that our discussions subsequent to your completion of the Investor Risk profile indicated that you would prefer to have your superannuation portfolio invested entirely in the Fixed Interest and cash asset classes.

Colonial FirstChoice Wholesale Investments

The FirstChoice Investments is a multi-manager investment solution which combines wide investment choice with a competitive and simple fee structure, backed up by a high standard of service support from Colonial First State.

A minimum total investment of \$5,000 (\$1,500 for super) is required to establish an account in FirstChoice Investments. A \$1,000 minimum initial balance is required if a regular investment plan is set up at commencement of the account. The minimum regular investment plan amount is \$100 per month.

Reasons and Benefits

The major features of the Colonial FirstChoice Investments are as follows:

Sector Specific Diversification

A strong range of investment options with access to more than one specialist manager within each asset class. This approach captures the competitive advantages of each manager. We anticipate this will provide higher returns than can be obtained from using diversified funds with, say, only one fund manager.

Simplicity

Consolidated reporting from Colonial First State.

Ease of Management

Automatic investment re-balancing and switching to help you easily and conveniently keep your investment strategies on track.

- We recommend that annual automatic rebalancing is elected.

Highly competitive and simple to understand fee structure

- No entry fee applies to this investment however, with your agreement; your Financial Adviser may wish to charge a one off fee for upfront costs.
- You can agree with your Financial Adviser to have an ongoing Adviser Service Fee for advice paid directly from your investment. The ongoing fee will be deducted monthly from your investment options.
 - **Our normal 0.50% p.a. Adviser Service fee will apply.**
- No switching fees or exit fees apply to this investment.

The investment cost will vary depending on which fund you are invested in, the assets it invests into and how actively they manage their portfolios, amongst other things. Typically these costs should not be compared directly.

Outcomes Post Recommendation:

1. You will gain access to a portfolio of funds that matches your investor risk profile and investment objectives.
2. You will gain access to a pension fund which provides the benefits that we have previously outlined.
3. You will have the ability to implement the documented strategies and have these reviewed on a regular basis.

Note:

- *Whilst the overall fee structure of the proposed Colonial Wholesale Pension Fund is higher than the current Russell and Australian Super funds, the historical performance of the respective funds detailed on the following page suggests that future performance of this actively managed fund is expected to outweigh the higher fee structure.*

Disclosure Statement

To help you understand the full benefits, details and risks of our recommended products, please read the Product Disclosure Statements that we will provide you.

Please let us know if you have any questions.

Cooling-off periods

After investing in a financial product, you have a “cooling-off” period in which to change your mind if you don’t think the product meets your needs. The cooling-off period usually starts when you’re told the product has been set up. The length of the period varies with each product.

Each Product Disclosure Statement explains your cooling-off rights.

If you wish to cancel a product, please tell us in writing so we can contact the product issuer within the time restrictions.

No guarantee

The investments we recommend for you must be appropriate for you. However, we don’t guarantee they’re the best available or that they’ll perform in a particular way. Product performance depends on the features and risks described in the Product Disclosure Statements given to you.

Please take the time to read the PDS and understand the products we have recommended. If you have any questions, please contact us.

Tax

There will be tax implications if you act on this advice. We recommend you ask a tax professional to assess the impact on your short and long-term financial positions.

Are My Product Recommendations Restricted?

Non Superannuation Products

Yes, when making non superannuation product recommendations I can only choose products from our Approved Product List (APL). This list is compiled by a dedicated Investment Committee, made up of Research Manager, Directors and Representatives who carefully analyse investment products, prior to including any product on the APL. The Committee utilises leading industry research houses to assist with their analysis.

The APL is regularly reviewed to ensure that all funds, managers and investment companies continue to meet our ongoing stringent requirements.

Superannuation Products

Yes, when making superannuation product recommendations I can only choose products from our Approved Product List (APL). However, if you have a superannuation product that is not on our APL, I am still able to make recommendations in relation to that fund providing I have conducted the necessary research and have a thorough knowledge of the fund.

What is My Responsibility to You?

I am responsible for providing you a 'clear, concise & an effective' method of communicating my recommendations to you. The recommendations are based on your goals and objectives, personal and financial situations, and other information collected from you. The recommendations are appropriate for your needs and current situation.

As the SoA is specifically prepared for you and based on your situation, I do not take any responsibility for any third party persons acting on all or on a part of any advice or recommendations made in this SoA.

Do I Guarantee the Investments I have recommended?

No. By law, the investments I have recommended must be appropriate to you, however, I do not guarantee that the recommended investments are the best for you or that they will perform in a certain way.

Your Financial Plan

In preparing this plan we have taken into account your specific goals and objectives, and have designed an appropriate strategy that aims to accomplish these.

It is important to appreciate that we live in an ever changing world. Accordingly, it is probable that, overtime, the basis of our calculations (inflation rates, investment rates etc) will change, as will your own requirements and expectations. It is therefore recommended you review your plan on a regular basis to ensure you are still on track to achieve investment objectives.

It is essential to have your investment portfolio reviewed to ensure that the investments are working to their maximum potential and any changes to the investment markets, taxation etc. are promptly and correctly responded to.
