Our Investment Recommendations

In respect of the specific investments we recommend as part of our advice you are entitled to a 14 day cooling off period for your initial investment. A cooling off period generally means a period of time after which you have provided your capital for investment, where you can change your mind and request for your capital to be returned to you.

Each fund manager or investment provider may implement the cooling off period in a slightly different manner. Therefore we recommend you refer to the Product Disclosure Statement for each of the recommended investments in order to understand the operation of each provider's cooling off period.

The Planning Process

Mark and Aislinn, *Financial Planning* is a process to help you reach both your Personal and Financial Goals and Objectives. In order to achieve this, we jointly need to undertake a number of tasks, including:

- ✓ Confirm your personal goals and lifestyle objectives;
- ✓ Quantify the resources required to meet your goals and objectives;
- ✓ Identify any gaps in your current plans and your stated goals and objectives;
- ✓ Develop suitable strategies to address any differences that may exist bearing in mind your attitude to investing and your risk profile;
- ✓ Conduct a regular review of the strategies we put into effect to ensure they keep pace with your changing needs, legislative changes and the investment environment.

Your Investor Risk Profile

The following section of your plan helps to ensure that I clearly understand your attitude to investment selection. Additionally, investments contain various characteristics, which may or may not suit each individual investor.

Based upon the asset allocation within your existing superannuation funds, it was determined that you can both be classified as *Growth* investors in regard to your investments inside the superannuation environment.

- A Growth investor ignores income and capital preservation in the short term in order to maximise their opportunities for capital growth over an 8 year plus time frame.
- Their portfolio would typically comprise of Australian and International Shares and Property.

A Growth investor will typically diversify their investment in the following manner:

Australian Shares	43%
International Shares	25%
Fixed Interest	13%
Property	17%
Cash	2%

Our research indicates that long term returns will be best achieved through a diversified portfolio covering all major asset classes (i.e. Cash, Fixed Interest, Shares and Property).

By covering all primary investment markets, the risks and volatility of your investments can be managed to levels consistent with your investment profile, whilst maintaining the potential for long term growth.

If you feel the above investor profile does not reflect your attitude as an investor, or the recommended portfolio contained in this report is too aggressive or conservative, please let me know so I may adjust my recommendations accordingly.

Superannuation Funds

Mark and Aislinn, you currently have the following approximate superannuation balances:

Mark

- CBus Super \$ 15,000

Aislinn

- REST Super \$162,000

TOTAL \$177,000

Recommendations:

- You effectively have two options in terms of how your existing superannuation monies are structured:
 - Continue to hold these monies in your existing CBus Super and REST Super funds.
 - Roll across these superannuation monies to a more actively managed wholesale 'master trust' superannuation accumulation platform.
- At this stage, we have not considered the option of a Self-Managed Superannuation Fund (SMSF), as your combined superannuation balance is not yet at a level where a SMSF would be viable.

Investments Within Superannuation

CBus Super – Account Number 411320339 (Mark)

	100%

REST Super Core Strategy Historical Performance at 31/10/20

	1 year	3 years (p.a.)
REST Super Core Strategy option	-0.61%	4.21%

Option 1 – Maintain Existing CBus and REST superannuation funds

Upside:

- The overall fee structure is relatively low when compared to a Master Trust platform.

Downside:

- The investment options available are very limited
- The historical average performance associated with your existing fund is lower than alternative options.

Option 2 – Master Trust Platform (Colonial First State)

Your respective investments in the Colonial First State platform would have a specifically modelled portfolio. The specific underlying funds that make up your individual portfolios would be:

Colonial First State Wholesale Personal Super – ‘Growth’ portfolio

	% of portfolio
Pendal Wholesale Australia Share	13%
CFS Wholesale Aust. Small Companies	30%
Colonial First State Wholesale Index Global Share	25%
Pendal Wholesale Property Investment (BT)	17%
Colonial First State Wholesale Index Australian Bond	15%
	100.00%

Performance of the alternative Colonial First State Growth Portfolio at 31/10/20

	% of portfolio	1 year	3 years (p.a.)
Pendal Wholesale Australia Share	13%	-0.64%	0.56%
CFS Wholesale Aust. Small Companies	30%	2.92%	3.59%
Colonial First State Wholesale Index Global Share	25%	0.64%	2.07%

Colonial First State Wholesale Index Australian Bond	15%	0.47%	0.69%
	100.00%	1.46%	7.77%

Benefits:

- The alternative portfolios have outperformed your current funds.
- A sector specific asset allocation strategy takes advantage of expert fund managers who specialise in that single sector.
- You will have access to a wide range of investment options which cannot be accessed in your current funds.
- The alternative wholesale fund platform has a wide range of investment options with access to more than one specialist manager within each asset class.
- The alternative wholesale fund platform allows for ongoing monitoring and management of the fund's performance and asset allocation.
- You would continue to receive ongoing advice from us as your financial adviser as we will have full access to information relating to the recommended superannuation fund. This will enable us to provide thorough and timely advice to you.

Investment Recommendation

Colonial FirstChoice Wholesale Investments

The FirstChoice Investments is a multi-manager investment solution which combines wide investment choice with a competitive and simple fee structure, backed up by a high standard of service support from Colonial First State.

A minimum total investment of \$5,000 (\$1,500 for super) is required to establish an account in FirstChoice Investments. A \$1,000 minimum initial balance is required if a regular investment plan is set up at commencement of the account. The minimum regular investment plan amount is \$100 per month.

Reasons and Benefits

The major features of the Colonial FirstChoice Investments are as follows:

Sector Specific Diversification

A strong range of investment options with access to more than one specialist manager within each asset class. This approach captures the competitive advantages of each manager. We anticipate this will provide higher returns than can be obtained from using diversified funds with, say, only one fund manager.

Simplicity

Consolidated reporting from Colonial First State.

Ease of Management

Automatic investment re-balancing and switching to help you easily and conveniently keep your investment strategies on track.

- We recommend that annual automatic rebalancing is elected.

Highly competitive and simple to understand fee structure

- No entry fee applies to this investment however, with your agreement; your Financial Adviser may wish to charge a one off fee for upfront costs.
- You can agree with your Financial Adviser to have an ongoing Adviser Service Fee for advice paid directly from your investment. The ongoing fee will be deducted monthly from your investment options.

Personal Insurances

The objective of having insurance cover over your life and your assets is to protect yourself and your family from financial distress in the event of death, illness or accident. Where such an event occurs, there is often considerable emotional distress. Financial planning aims to remove the financial distress at such a time.

There are two ways you can manage this type of risk:

- Self-insurance; or
- Transfer of the risk/insurance to an insurance company.

There are many instances where people effectively elect to self-insure through lack of planning. This means an event occurs which causes financial distress and people manage on what they have set aside. Other ways of self-insuring are by planning and setting aside funds for protection in such an event. The most common form is, however, to recognise the risk and evaluate how much protection is required and then transfer that risk to an insurance company.

Personal Insurance - Review Recommendation

Managing risk is an important part of the financial planning process in order to provide protection against possible future financial loss. Insurance is a simple precaution you can take to protect against the financial consequences of premature death, a medical crisis, total and permanent disablement or temporary disablement.

Existing Cover Amounts

Mark, you currently have the following insurance cover in place under your CBus super fund

CBus Super (superannuation owned)

Life Insurance:	\$52,000
TPD:	\$33,800

You also have a MLC Income Protection policy that is detailed in our separate Insurance Report.

Aislinn, you currently have the following insurance cover in place under your REST super fund

REST Super (superannuation owned)

Life Insurance:	\$374,000
TPD:	\$ 71,500
Income Protection:	\$2,125 p.m. (60 day wait / payment period of 2 years)

You have separate insurances in place with TAL and these are detailed in our separate Insurance Report.

A full analysis of your personal insurance requirements should be undertaken before any decision is made and action taken. Lakeside's Tristan Strange will assist you with this analysis and we will subsequently provide recommendations accordingly.

Potential Residential Property Purchase

- Mark and Aislinn, you are considering purchasing a residential property in either the Ardeer/Sunshine area or the Rosebud/Capel Sound area.
- Between you, you have approximate cash reserves of \$211k (\$161k of which is currently offsetting the investment property loan).
- We have outlined below, some items worth considering with regard to this potential purchase:

Stamp Duty Concessions

The Victorian Government 2020/21 budget released on 24 November 2020 revealed that Victoria will offer major stamp duty discounts as a means to stimulate the property market. The Government will waive a percentage of stamp duty for residential properties valued up to \$1 million as follows:

- 50% waiver on purchases of newly built or off-the-plan residential properties; and
- 25% waiver on existing residential properties
- The waiver applies to contracts entered into on or after 25 November 2020 and before 1 July 2021.

The increase in the threshold of the value of residential properties to \$1 million (instead of the previous \$750,000 threshold) will mean that more people will be eligible for stamp duty discounts.

The change reflects a saving of up to \$27,500 for buyers of a new home, and a saving of up to \$13,700 on the purchase of an established home.

First Home Owner Grant (FHOG)

Mark, as you do not own a residential property, you may be eligible for the FHOG (**\$10,000**). There are a number of criteria that need to be met and we have outlined these here:

- Your new home must be less than five years old. It can be a house, townhouse, apartment, unit or similar, but it must be valued at \$750,000 or less (that is, the contract price for construction) and be the first sale of the property as a residential premise.
- You're not eligible for the FHOG if you or Aislinn have already:
 - Received the FHOG in Australia.
 - Owned a home or other residential property in Australia, either jointly or separately, prior to 1 July 2000.
 - Lived in a home in Australia which either of you owned or part-owned on or after 1 July 2000, for a continuous period of at least six months.
- You may still be eligible for the FHOG if you or Aislinn purchased property on or after 1 July 2000 and have not lived there as your home.

Home Builder Grant

On 4 June 2020, the Australian Government announced HomeBuilder to provide eligible owner-occupiers (including first home buyers) with a grant of **\$25,000** to build a new home, substantially renovate an existing home or buy an off-the-plan home/new home. A new home is one that has not previously been sold or occupied as a place of residence (e.g. a spec build) and where construction commenced on or after 4 June 2020.

However, the eligible contract must be signed between 4 June 2020 and 31 December 2020 (inclusive), construction need not commence prior to 31 December 2020.

What is paid to your adviser

Plan Fee

You have agreed to a Plan Fee of \$1,100 (including GST), which will be invoiced to you.

Upfront and Ongoing Fee Disclosure

The actual amount will vary over time according to the mix of the underlying investments and the total value of your funds under management. The agreed Ongoing fee is the way we charge for the ongoing service that we provide. If at any time you wish to discuss this you can do so.
