Purpose of this document

The following Statement of Advice (SoA) is an outline of the financial plan discussed with your financial planner. It details the recommendations needed to execute your plan and achieve your financial objectives.

Timeframe for our advice

Our recommendations in this SoA are valid for 30 days from the preparation date on the cover of this document. If your circumstances change before you implement our recommendations, or if you don't act on them within 30 days, they may no longer be appropriate for you. If that happens, please ask us to review your situation before taking any action.

Check for accuracy

This SoA is based on the information you provided. Please read the document carefully, checking that your details are correct and that no important facts are missing. If anything is wrong or missing, please let us know immediately—otherwise our advice may be based on incorrect information and may not be right for you.

Limitations of our advice

We cannot give advice on:

- Trust or business structures
- Taxation
- General insurance
- Direct share or property purchases
- Legal matters

Please don't consider any of this document's recommendations to be advice in any of these areas. If you need advice in these areas, please see a qualified professional in that field.

Assumptions we've made

When giving advice, we make certain assumptions to demonstrate how the advice could affect your financial situation. We've based our advice on economic information and legislation that was current when we prepared your SoA.

All dollar amounts in this SoA are in today's dollars, even when we mention future income, expenses, investment amounts and so on. Naturally we can't predict what future inflation rates will be, so we can only make assumptions based on past trends. Also, all amounts listed in this document are "p.a." (per annum) unless otherwise stated or implied.

Product selection

We are committed to giving you the best products for your situation. When preparing your advice, we considered and recommended only those products on Pareto Group's "Approved Product List". This list was compiled by a dedicated Investment Review Committee, which regularly reviews it. To see the complete product list, please ask us.

Introduction

You are entitled to receive a Statement of Advice (SoA) whenever we provide you with any personal financial advice. Personal financial advice is advice that takes into account any one or more of your objectives, financial situation and needs.

This SoA is a record of the personal financial advice provided to you and includes information on the basis on which this advice is given, information about remuneration including fees, any other benefits and any interests, relationships or associations which might influence the making of the advice.

If this advice includes a recommendation to you to acquire a particular financial product (other than securities) or an offer to issue or arrange the issue of a financial product to you, we will also provide you with a Product Disclosure Statement containing information about the particular product to help you make an informed decision about that product.

Our Investment Recommendations

In respect of the specific investments, we recommend as part of our advice you are entitled to a 14-day cooling off period for your initial investment. A cooling off period generally means a period of time after which you have provided your capital for investment, where you can change your mind and request for your capital to be returned to you.

Each fund manager or investment provider may implement the cooling off period in a slightly different manner. Therefore, we recommend you refer to the Product Disclosure Statement for each of the recommended investments in order to understand the operation of each provider's cooling off period.

Tax Rates

When assessing the most tax effective environment for your investment assets, we need to consider the tax that would be payable on any income that these investments will generate. The current tax rates are as follows:

Income Earned in your personal name

Tax rates 2023-24

<i>Taxable income</i>	<i>Tax on this income</i>

\$180,001 and over	\$51,667 plus 45c for each \$1 over \$180,000

* The above rates **do not** include the Medicare levy of 2.0%.

Income Earned in the superannuation environment

Summary Of Non-Concessional Contribution Rules

Non-concessional contributions (sometimes referred to as after-tax contributions) are generally those that are:

- Made from after tax money (and don't provide the contributor with a tax-deduction), and
- Not taxed when received by the superannuation fund (i.e. not included in the fund's assessable income).

Standard Non-Concessional Contributions Cap

The standard non-concessional cap is set at four times the basic concessional contributions cap, which is indexed at Average Weekly Ordinary Time Earnings (AWOTE) in increments of \$2,500. Therefore, the standard non-concessional contributions cap will increase in line with increases in the concessional contributions cap, in increment of \$10,000. The standard non-concessional contributions cap did not increase in 2022.

In addition, a member's total superannuation balance just prior to the start of a financial year must be less than the general transfer balance cap for the financial year (\$1.7 million for 2022-23) to access the standard non-concessional cap - where this is not the case the member's non-concessional cap for the financial year will be nil.

The standard non-concessional cap and total superannuation balance requirement is shown in the table below.

Financial Year	Standard non-concessional contributions cap	If total superannuation balance is:
2023-24	\$110,000	Less than \$1.9 million at 30 Jun 2023
	Nil	\$1.9 million or more at 30 June 2023
2022-23	\$110,000	Less than \$1.7 million at 30 Jun 2022
	Nil	\$1.7 million or more at 30 June 2022
2021-22	\$110,000	Less than \$1.7 million at 30 June 2021
	Nil	\$1.7 million or more at 30 June 2021
2020-21	\$100,000	Less than \$1.6 million at 30 June 2020
	Nil	\$1.6 million or more at 30 June 2020

Concessional Superannuation Contributions Carry Forward

The concessional superannuation contribution cap in previous years was \$25,000 per annum. In the 2021/22 financial year, this cap increased to \$27,500 p.a.

Carry Forward Concessional Contributions:

- If you have a total superannuation balance below \$500,000 you can carry forward any unused concessional contributions cap amounts that accrue from 1 July 2018 for up to five financial years. This allows eligible members who do not use all of their concessional cap in a particular financial year, to carry forward their unused concessional cap amounts to future years.
- To be eligible to make catch-up concessional contributions in a year, you must meet the following conditions:
 - have a 'total superannuation balance' of less than \$500,000 as at 30 June at the end of the financial year immediately preceding the financial year in which the concessional contribution is to be made
 - have previously unused concessional contributions cap amounts that have accrued in one or more of the five financial years preceding the year in which the concessional contribution is made.

Benefits:

- Personal concessional contributions are made with pre-tax dollars and therefore you will receive a reduction in taxable income for the contributions that you make.

Downsizer Contributions

Currently, individuals of age 60 and over are able to contribute an amount equal to all or part of the sale proceeds from the sale of their main residence, of up to \$300,000 each into super. Downsizer contributions can be made regardless of the other contributions caps and restrictions that might apply to making voluntary contributions, i.e. age restrictions or work test requirements. There is no upper age limit on making downsizer contribution.

A member satisfies eligibility requirements if:

- The contributor is 60 years of age or over from the 1st of July 2022 at the time of the contribution.
- The contribution is capped at \$300,000 per person.
- The main residence was owned by the individual, spouse or former spouse for 10 or more years prior to the sale.
- The contribution must be made into the fund within 90 days of the change of ownership.

Benefits:

- Any assets held within the fund are effectively being held in the most tax effective environment.
- The returns on balances held within superannuation and invested should be higher than the current returns on cash held in bank deposits.

Risks:

- Superannuation benefits are subject to market returns and earning rates are not guaranteed.

Work Test

From 1 July 2022, a super fund can accept any contributions made for a member while they are under the age of 75 (including the period up to 28 days after the end of the month in which they turn 75), **regardless of their work status**.

Superannuation – Pension Phase and Retirement Income Streams

Upon reaching preservation age, current legislation allows you to commence an income stream with your superannuation monies. From age 60, all income received from this income stream is tax free.

Once you have commenced an income stream all income earned from the amount funding the income stream is also tax free, as opposed to being taxed at 15% when in accumulation phase. Income that is taxed within the super fund includes distributions and any capital gains realised via the selling of units.

A member's preservation age depends on their date of birth as shown in the following table. The 2015–16 financial year saw the start of the gradual transition of preservation age from 55 to 60.

Date of birth	Preservation age	Financial year preservation age reached
Before 1 July 1960	55	2014–15 or earlier
From 1 July 1960 to 30 June 1961	56	2016–17
From 1 July 1961 to 30 June 1962	57	2018–19
From 1 July 1962 to 30 June 1963	58	2020–21
From 1 July 1963 to 30 June 1964	59	2022–23
On or after 1 July 1964	60	2024–25 or later

For Consideration:

- The minimum income stream that must be drawn from the Allocated Pension is:

Age	Under 65	65-74	75-79	80-84	85-89	90-94	95+
Standard percentage	4%	5%	6%	7%	9%	11%	14%

Are My Product Recommendations Restricted?

Non-Superannuation Products

Yes, when making non-superannuation product recommendations I can only choose products from our Approved Product List (APL). This list is compiled by a dedicated Investment Committee, made up of Research Manager, Directors and Representatives who carefully analyse investment products, prior to including any product on the APL. The Committee utilises leading industry research houses to assist with their analysis.

The APL is regularly reviewed to ensure that all funds, managers and investment companies continue to meet our ongoing stringent requirements.

Superannuation Products

Yes, when making superannuation product recommendations I can only choose products from our Approved Product List (APL). However, if you have a superannuation product that is not on our APL, I am still able to make recommendations in relation to that fund providing I have conducted the necessary research and have a thorough knowledge of the fund.

What is My Responsibility to You?

I am responsible for providing you a 'clear, concise & an effective' method of communicating my recommendations to you. The recommendations are based on your goals and objectives, personal and financial situations, and other information collected from you. Do I Guarantee the Investments I have recommended?

No. By law, the investments I have recommended must be appropriate to you, however, I do not guarantee that the recommended investments are the best for you or that they will perform in a certain way.

Your Financial Plan

In preparing this plan we have taken into account your specific goals and objectives, and have designed an appropriate strategy that aims to accomplish these.

It is important to appreciate that we live in an ever-changing world. Accordingly, it is probable that, overtime, the basis of our calculations (inflation rates, investment rates etc) will change, as will your own requirements and expectations. It is therefore recommended you review your plan on a regular basis to ensure you are still on track to achieve investment objectives.

It is essential to have your investment portfolio reviewed to ensure that the investments are working to their maximum potential and any changes to the investment markets, taxation etc. are promptly and correctly responded to.
